Technical news

Personal information about me:

I was born in 1999 and live in Salt, Jordan. I graduated at the end of 2022 with a major in mechanical engineering. Because I have technical and programming inclinations, I entered the web developer field, and I am very happy with that. And maybe in the future I will combine mechanics and programming.

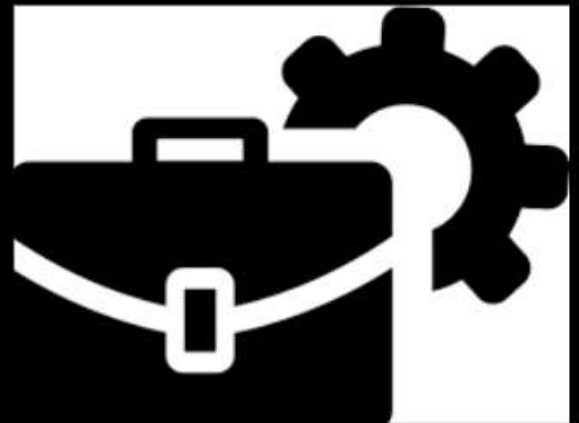

past work

I worked as an auto technician for 6 months, working 10 hours a day.

I participated in many initiatives and volunteer work during the university period.

I worked part time in a restaurant during university.
